- Steven Shi
- Honour ???
- Ethan Tang
- Jodi ???
- Alma???
- Wesley ???
- Channi Park
- Kaia ???
- Emily Tran
- Violet Karr

2022-23 (gr6)

A normal beginning

Our first year started like any other year at a new school – not much talking – the new kids watched and learned from the grade 7s at the time, who were decent examples, some a lot better than others. Most of the grade 6s were invited to the MACC Discord server, were they got to know each other better. One of the main events tht united the new MACC children was the Macchunt community, which was extremely popular at the time, having over 20 members, and on some days up to 40 people playing all at once, in one big game. The students got to know each other well, and most of them became a part of the MACC community, and a part of MACC lore.

Suspicious activities

A few months into the year, a grade 6 student named Arjun Subash was seated next to Jonathan Koh, the "troublemaker" of the class. He watched as Jonatnan "thanos" played Pokemon in class and ordered a McDonalds Happy Meal to the office. Following in his footsteps, Arjun Subash started playing video games in class as well – from Roblox, to random web games, and even Tetris, Arjun became known as the "sneaky sussy boi", a joke started by Dan, a grade 7 student. This nickname stuck with Arjun until the end of the year.

MACC Lore writers, write your stories here of the start of the year.
